Sales & BD Staff	6	2.8 yrs	New client development, marketing, proposals, events
CEO	1	9.0 yrs	Company strategy, key client relationships, board management
TOTAL HEADCOUNT	68		

Structural Notes

High researcher turnover:	~35% annual turnover at the Researcher/Resourcer level. Most join as entry-level staff and either progress to Consultant within 18 months or leave the industry. Training and knowledge retention are significant challenges at this tier.
ATS migration disruption:	The Operations Director is currently managing the Vincere ATS migration in addition to her regular remit. This has created capacity pressure in the Operations team since January 2026. External Vincere consultant engaged from June 2026.
Warsaw office:	Opened 2023 following the RPO pilot win with a Polish fintech. Managed by RPO Manager Nowak. No dedicated operations or finance support in Warsaw — all back-office functions handled from Sofia HQ.
Executive search practice:	Operates semi-independently under Senior Partner Georgieva with its own candidate pool and client relationships. Fee sharing with the wider firm is informal and occasionally contentious. Accounts for ~18% of revenue at the highest margin of any service line.
