4. Time-to-Fill Analysis — FY2025 vs Q1 2026

Time-to-fill measured from mandate receipt to candidate start date confirmation. The 38-day FY2025 average masks significant variation by role seniority.

Segment	FY2024 Avg (days)	FY2025 Avg (days)	Q1 2026 Avg (days)	Target (days)	Gap vs Target
All Permanent Roles	41	38	36	28	+8 days above target
Perm — Junior / Mid (up to €45K)	35	32	30	24	+6 days above target
Perm — Senior (€45K–€80K)	44	41	40	32	+8 days above target
Perm — Executive / C-Suite (€80K+)	68	62	58	45	+13 days above target
Contract (start from signing)	12	11	10	7	+3 days above target
Sourcing phase only	—	22	21	12	+9 days — primary driver of overall gap
Submission to offer phase	—	16	15	16	On target

Key insight: The sourcing phase (stages 1–2) accounts for 22 of 38 total average days — 58% of total time-to-fill. This is the primary driver of the gap vs. the 28-day target. Submission-to-offer phase performance is broadly on target.

Note: This report was compiled manually from the BD pipeline spreadsheet (Head of BD) and Zoho Recruit mandate reports. There is no automated CRM-to-pipeline reporting view. Data accuracy depends on consultant and BD manager updates, which are inconsistent. Time-to-fill data is manually tracked; some mandates have incomplete date fields.
